Product highlights

6 in 1 home cinema remote

Make operating your home cinema easier than ever with just one easy to use unit that'll operate your TV, video, DVD, satellite receiver, digital set-top box, CD player and amplifier regardless of the brand or model. Enjoy one touch convenience when watching your favourite movies.

Batteries included

No extra batteries to buy, so you can use your new universal remote control straight out of the packaging

Fast menu access

The important functions like set up menu and text TV have clearly labelled, dedicated keys to make operating your equipment easier.

Learning capability

To have all the functions of your original remote available you can copy the signal transmitted from the original remote. It is then stored in the memory of the universal remote control.

Macro function

Benefit from 'one-touch' convenience by creating your own macros that perform any sequence of commands from a single button. Just imagine, turning the TV on, setting the surround sound and starting the movie rolling with just one touch!

Pre programmed for Philips

If you have Philips equipment, you can use your universal remote control without programming it because all keys are preset for Philips.

Timer function

You'll never have to miss your favourite show again. Simply set the timer to switch on the TV at the time the programme starts. It's programmable for any device.

URC service line

If you have a problem or question about your universal remote control, or there's a function key on your original remote control not covered by the extensive built in code library, call the service line for a solution. It's available seven days a week.
